

Objectives

The objectives of RYTPAG are related to the marketing of petroleum products and appropriate logistics in order to link to surprising turnovers.

Primary Objective

The main objective of RYTPAG INT. ENERGY AND LOGISTIC S.A. is to prepare all the appropriate logistics in order to distribute the production of petroleum resources on the national and international market at a competitive price.

Business Objectives

The business objectives will be the compass that will guide the RYTPAG INT. ENERGY AND LOGISTIC S.A. limited company, indicating how to distribute their strengths, weaknesses and available opportunities.

Financial Goals

RYTPAG INT. ENERGY AND LOGISTIC S.A. will continue to achieve increased profitability, which is crucial. Because, the surpluses of its annual profits will be allocated to the development of small projects in a third of the country

Operational Objectives

Through the operational objectives of the limited company RYTPAG INT. ENERGY AND LOGISTIC S.A., it is intended to ensure that the commercial and logistical aspects keep pace, while guaranteeing the reception and distribution of petroleum resources from the refineries at each delivery in order to allow its proper functioning.

Vision

The joint stock company RYTPAG INT. ENERGY AND LOGISTIC S.A., through its vision, will conceive that commercial customers will play a preponderant role in the development of the said Company, provided that the magnitude of the task that falls to it is not often unrecognized. Far from being a commercial company for the sale of petroleum products and the provision of adequate logistics services, however, it will be a real living force that accompanies the said clients, in order to supervise them well, by assigning them several commercial tasks in the form of achievable, understandable, innovative and motivating objectives.

Mission

The mission of the limited company RYTPAG INT. ENERGY AND LOGISTIC S.A. is to research the fuel needs of potential customers in order to respond in the best way to the marketing of petroleum products and to provide logistical support on the national and international market, in order to offer quality services on which it depends and to manage the customers' purses according to supply and demand.

Growth

RYTPAG INT. ENERGY AND LOGISTIC S.A. will measure its growth in the short, medium and long term. The products and growth will manifest itself in the form of traffic to a website that will manifest the satisfaction of the customers acquired, the quality of sales, the number of transactions and turnover made on social media and much more.

Productivity & Performance

RYTPAG INT. ENERGY AND LOGISTIC S.A. wants to ensure the productivity and performance of a qualified staff in order to accumulate revenue and generate customer satisfaction.
